## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-3 and 5-12 are allowed.

The following is an examiner's statement of reasons for allowance: The inclusion in claim 1 of limitations that a thermosensitive ray detector comprises a shield member which includes both a reflector film and an absorbing member is considered a nonobvious modification of prior art devices such as Oda. The inclusion in claim 6 of limitations that a thermosensitive ray detector comprises an absorbing member which overhangs one resistor and is thermally coupled to another resistor is considered a nonobvious modification of prior art devices such as Oda.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
